A. including B. containing C. having D. concerning

Question 35.

A. place B. attraction C. site D. spot

VI. Read the passage, and choose the correct answer A, B, C or D for each question. ⇱

Located in the limestone mountains of Phong Nha - Ke Bang National Park, Son Doong Cave was first found in 1991 by Ho Khanh, a local man. In 2009, the cave was explored and published by a group of scientists from British Cave Research Association.

Son Doong Cave was formed from 2 to 5 million years ago, when river flowed through the limestone mountain area and was buried. The water eroded limestone and created an underground tunnel. In soft limestone areas, the collapse of tunnel ceiling formed large holes which became giant domes afterward. The cave is about 200m high, 200m wide and least 8.5km long. Especially, Son Doong consists of two entrances, which is unique among explored caves in Phong Nha - Ke Bang National Park. Exploring the cave, visitors were surprised with spectacular scenery of numerous stalactites of which some giant stalagmites are more than 60 metres high. Deep inside the cave exists a grandiose tropical jungle called "Garden of Eden" by the explorers. The jungle is home to a diversified system of fauna and flora. Besides, the cave possesses a 2.5-kilometre underground river. Not far from the "Garden of Eden" lies an enormous "pearl collection" consisting of tens of thousands of small stone pieces in dry ponds, contributing to magnificent beauty of the cave.

Question 36. The reason why Son Doong Cave was formed is that_____

A. the river was buried in the limestone mountains
B. it only happened from 2 to 5 million years ago
C. the limestone areas were soft
D. an underground tunnel was buried in the area

Question 37. The most important feature of "Garden of Eden" is_____

A. the biodiversity
B. the biggest length
C. the river below
D. giant stalagmites

Question 38. We can infer from the passage that_____

A. "Garden of Eden" is in the underground river
B. "pearl collection" contains a lot of precious stones
C. tunnels and giant domes were formed at the same time
D. we can live the cave with the air and water

Question 39. All of the following are the wonderful features of Son Doong Cave EXCEPT_____

A. the big size of the cave and the giant domes
B. a river flowing over 2.5 kilometers along the cave
C. spectacular scenery of numerous stalactites and stalagmites
D. a tropical jungle inside with the biodiversity

Question 40. The thing that makes it different from other caves in Phong Nha-Ke Bang National Park is_____

A. its discovery by a local man
B. large holes in the ceiling
C. stalactites and stalagmites
D. the two entrances into the cave
